</tbody>
</table>
**Zoom in·Zoom out**
Click on the “Zoom in” or “Zoom out” icon to enlarge or shrink the map to a desirable scale.
The map can also be enlarged or shrunk using the wheel button of the mouse.

**Default display range**
Click on the “Default display range” icon to return the map to the default display range centered on the Arabian Sea.

**Display of schematic view**
Click on the “Display of schematic view” icon to show the schematic view of the map. It shows where the currently displayed area is on the overall map.
**Layer List**

Click on the “Layer List” icon located at the bottom center of the screen to show the pop-up of the layer list.

Enter checkmark(s) in Layers of the “Layer List” to show the layer on the map.

Multiple layers can be selected and overlaid.

Click on the “Legend” icon located at the bottom center of the screen to show the legend of the layer(s) selected in the Layer List.
Details of the legend can also be checked by clicking on the down arrow (▼) on the left of the Layer List.
**Time Slider**
The “Time Slider” function allows you to see the time-series change of the data in animation.

Click on the “Time Slider” icon located at the bottom center of the screen.

The date is displayed, and the animation starts.

For example, the right figure is showing the layer from January 1, 1997 to January 1, 1998.

*The animation changes about every five seconds and the displayed period changes accordingly.
Details can be adjusted by placing the cursor on the displayed date.

The animation period can be adjusted by moving the start point and end point.
**Attribute hover display**
Click on the “Attribute hover display” icon and hover the cursor over a displayed landmark (maker) to show the attribute information of the landmark.

- **Display**
  - Click on the displayed landmark (marker) to show its detailed attribute information on the left side of the screen.

  *The attribute information can be checked even when the attribute hover is hidden.*
Detailed reference information can be checked in a separate window when there is a “More info” link in the “Flow of funds chart” or “Outline_PDF” column.

Click on the “Clear” icon to hide the displayed attribute information.
**Attribute Table**
Click on the “Attribute Table” icon to show a list of attribute information of the landmarks (markers).

The display width of the attribute table can be adjusted by clicking and dragging the top of the attribute table up & down.

When the “Filter by map extent” is enabled, only the attribute information of the landmark in the currently displayed map will be listed.

Click on the desired item to list data in an ascending or descending order.
Click on the “+” icon on the upper right of the attribute table to select attribute items to show.

Enter checkmarks for necessary items to show only those selected items.

Click on the “+” icon again to close the check screen.

Checkmarks are entered only in the “Project,” “Country,” and “Outline” in the right figure.
